

# Patient and Family Seminar

**When:** September 2-3, 2005  
**Where:** My Hotel, Lednice  
**Capacity:** 130 participants

# Lednice - Valtice

## Cultural Landscape – UNESCO World Heritage Centre

Between two centres, Valtice and Lednice, lies a stylish landscape with many ponds and parks containing romantic structures.

This area gives a lot of opportunities for recreation activities as well as for relaxation.

# Lednice - Valtice

## Cultural Landscape – UNESCO World Heritage Centre

One of the most remarkable areas of great natural as well as artistic and historic value in Central Europe.

The area was created between the end of the 18th and the mid-19th centuries as a well thought out project of the former owners of the manor, the Lords of Lichtenstein.

# Lednice - Valtice

## Cultural Landscape – UNESCO World Heritage Centre
