

June 16, 2008

Dear Colleagues,

Let us inform you that UNIVERSITY RESEARCH CENTER - CZECH MYELOMA GROUP and UNIVERSITY CELL IMMUNOTHERAPY CENTER at the Masaryk University, Brno, Czech Republic is organising

**3RD MYELOMA WORKSHOP
AND
1ST IMMUNOTHERAPY WORKSHOP**

*at the University Campus, building A3, Kamenice 5, Brno on
October 15th and 16th, 2008*

Topics:

- ❖ *detection of chromosomal aberrations in Multiple Myeloma*
- ❖ *frequently used separation methods of the myeloma cells*
- ❖ *cryopreservation and banking of the myeloma cells*
- ❖ *cancer immunotherapy – from bench to bedside*

Who should attend this meeting:

Molecular biologists, immunologists, biology scientists, laboratory technicians from each participating center who routinely provide MM patient care or are dealing with cancer immunotherapy through the performance of a wide variety of laboratory analysis and procedures.

Meeting will be divided into theoretical and practical part. If you have any announcement to be presented, do not hesitate to inform us. Every participant will obtain Abstract and Application Manual with discussed topics.

Enclosed you will find return forms. Please fill it up and send back to petrovic@med.muni.cz (deadline August 1st, 2008).

Accommodation and meal during the meeting will be provided.

We look forward to meeting you soon.

With best regards,

Professor Roman Hajek, MD PhD
Chairman of CMG

Gabriela Petrovicova, Ing.
Manager of URC-CMG

Professor Jaroslav Michalek, MD PhD
Chairman of UCIC
